# Most Popular Exhibits

**Boost:** Guests enjoy interactive mental and physical challenges that promote wellness and self-improvement, highlight science and create lots of fun. Walking on a tightrope, practicing yoga, playing a jumping game and much more allow guests to test their creativity, flexibility, memory, reflexes and strength. Plus, guests can watch the Museum's team cook healthy recipes and sample fresh snacks at the kitchen inside the exhibit.

**SPEED:** SPEED unveils the mind-blowing intersection of motion and time across a world of science and technology by demonstrating the superfast and incredibly slow. The 10,000-square-foot exhibit features more than 50 interactive stations including a cosmic ray detector, Moon rock, robot playing air hockey, pitching cage, sprint track, human wind tunnel and SR-71 Blackbird supersonic jet. Plus, it includes a theater with a huge sphere-shaped screen where guests can experience dynamic live science programs on topics ranging from climate change to anatomy to physics.

**LightPlace:** This bright, exploratory and fun exhibit helps the youngest scientists with problem solving, social and environmental awareness, motor skills and object identification. Playful hands-on stations and multi-sensory activities advance skill development, cultivate 21st century learning, support developmental milestones and promote STEM concepts.

# Virginia War Memorial

## Storytime at the Memorial

### Flag Day History

**Saturday | June 14, 2025**

**10:30 am - 11:30 am | Russell Scott Hall**
